Data Flow Diagram

This Data Flow Diagram (DFD) shows how data moves through the credit card approval system, between the applicant (an external entity), the processes that handle and transform the data, and the data stores that hold it for later use.

DFD Symbol Legend

Symbol	Name	Description
Oval / Rounded shape	External Entity	A person or system outside the project that sends or receives data (e.g., Applicant).
Rectangle with numbered header	Process	An activity that transforms incoming data into outgoing data (e.g., Collect Application, Preprocess & Predict, Notify Result).
Rectangle (solid fill, no number)	Data Store	A place where data is held for later use (e.g., Applicant Data Store, Trained Model Store).

Labeled arrow	Data Flow	The movement of data between entities, processes, and data stores, labeled with what data is being passed.
---------------	-----------	--

The diagram below illustrates how the symbols above come together to form a complete data flow diagram.
